RE: Access Youth Academy Live Well San Diego Partner Application

Dear Nick,

Access, in its tenth anniversary year, continues with its mission to transform the lives of underserved youth through its four pillars of academic achievement, health and wellness, leadership and social responsibility through squash. To date, Access celebrates a 100% high school graduation rate, 100% college acceptance rate, helping secure over \$4.5 Million in earned scholarships for 35 students, and winning 13 National Urban Squash Titles.

Our goal is to ensure student success throughout high school and that each student earns a college degree, receiving the greatest amount of scholarship and financial aid possible. Our after school enrichment program is a twelve-year promise to students, which begins with students in the 7th grade and continues through their four-year college degrees and an additional two years of support post-college while they begin their professional careers.

Access works collaboratively with local schools, educational nonprofits, public agencies, business, philanthropy, and other community leaders who have developed programs for social change, and recognize that our efforts strongly align with San Diego County's Live Well San Diego Program to support a San Diego region that is healthy, safe, and thriving. As such, Access Youth Academy will contribute to the *Live Well San Diego* initiative by participating in collaborative efforts and educational opportunities with the programs broader network.

We are excited about this opportunity to work with the County of San Diego and other partners in the community, to help advance the principles and outcomes of a strong *Live Well San Diego* Program.

Kind regards,
